**TASMAN  
TANK CO.**

DESIGN ■ FABRICATE ■ CONSTRUCT

**The Tasman Tank Co. offers one of the highest quality water containment structures with its range of Fusion Bonded Bolted Steel Tanks.**

Our FBE Tanks are at the top of the industry in terms of design, manufacture and construction. The specialised Fusion Bond process offers wider and more effective containment options for larger and more intricate systems designed specifically for large industry needs.

The Tasman Tank Co is pleased to present our Fusion Bolted Bolted Steel Tank. The ultimate fusion coated tank system for:
